

MASSIVIT

Massivit, its Board of Directors, management, and employees pay their respects to those who have been murdered or who have fallen during the Iron Swords War. The Company shares in the sorrow of bereaved families and extends wishes for a speedy recovery to those who have been wounded, with hope for the safe and speedy return of abductees. We extend our support and strength for the security forces and their families and for all residents of the country, with hope for peaceful times ahead.

Dear Sir/ Madame,

Re: **Signing of Memorandum of Understanding with Materials Manufacturer, SIKA**

The Company is pleased to announce it has signed a Memorandum of Understanding with Sika Deutschland GmbH ("Sika") for strategic cooperation between the companies, the purpose of which, inter alia, is to bring to market co-branded printing materials - based on Sika materials - for use with the Company's printers.

To the best of the company's knowledge, Sika is a Switzerland-based, global corporation - listed on the Swiss stock exchange, founded over 100 years ago - that operates in the construction and sealants industry and is engaged in the development and production of various materials for industrial purposes, including composite materials.

The Company estimates that its collaboration with Sika marks a strategic milestone in driving the Company's business plans to expand its printing materials offering and develop new markets.

The collaboration will begin at the JEC World tradeshow taking place between March 5th-7th, 2024 in France, with the launch of 2 co-branded printing materials.

The sale of co-branded printing materials to the Company's customers is expected to begin in the second half of 2024, with the parties intending to enter into a detailed agreement during the aforementioned period.

Sincerely,

Massivit 3D Printing Technologies Ltd.
