Dear Sir/ Madame,

Re. **Launch of New Printer**

The company is honored to announce the launch of a new printer, the Massivit 3000, that belongs to the GDP (Gel Dispensing Printing) product line. The Massivit 3000 printer provides ultra-fast printing designed for production of large parts and will be sold at a competitive penetration price point. The company estimates this will enable a broader range of customers to adopt Massivit's technology. The new printer will be presented for the first time, alongside the Massivit 10000 printer, at drupa – the world's largest international printing industry exhibition that will take place in Dusseldorf, Germany between 28.5.2024-1.6.2024.

Sincerely,

**Massivit 3D Printing Technologies Ltd.**
